Cool Peel

(1hour 15 mins) £45.00

A patch test is required at least 24hrs prior to this treatment. Clients must be using Environ® homecare for 3 weeks prior to a cool peel.

Environ cool peels are a revolutionary approach to peeling that can achieve incredible results without damaging the skin. Low strength Lactic acid is used to reduce the skin's pH and trigger the release of growth factors, which creates tighter, smoother skin. It destroys bacteria, boosts hydration and removes the build-up of dead skin cells, helping to decongest the surface and smooth its texture. The cool peel is ideal for clients with skin with uneven texture, lines and wrinkles, Rosacea or Acne.
